

In [9]: `import numpy as np`

*# Step 1: Generate even numbers between 10 and 50*

`even_numbers = np.arange(10, 51, 2)`

*# Step 2: Display the result*

`print("Even numbers between 10 and 50:", even_numbers)`

Even numbers between 10 and 50: [10 12 14 16 18 20 22 24 26 28 30 32 34 36 38 40 42 44 46 48 50]
